2 PDD-25-2020 Official Plan and Zoning By-law Amendment to Permit 173 Seasonal Cottages and Associated Amenities – LJM Developments Inc.

J. Miller presented the report.

John Ariens, IBI Group, spoke to the proposed development noting some differences from the staff report. He indicated that they feel that the application is not a new settlement but is a resource-based recreational facility. They are 173 seasonal, modular-type cottages on concrete pads. The developer feels that this conforms to the Growth Plan and is consistent with the Provincial Policy Statement. Erosion can be dealt with through setbacks, gas wells can be capped or captured, and they believe that there are no traffic safety concerns.

Mr. Mian, LJM Developments, spoke to his company's previous projects and the vision for this proposed project.

Karl Peter, nearby property owner, expressed concerns related to the access point for the development and the traffic emanating from the development. He is also concerned about drainage.

Terry Horton expressed concern about near-misses on North Shore Drive as the road is narrow. He also spoke to the area being a sanctuary and feels the development is too much for the small community that is there now.

Sandra van Grieken, nearby property owner, noted that the steepness of the hill is a significant traffic safety concern. The seasonal homes will border their farm and their crops come off as weather allows which may be any time of day or time. She very much objects to the proposed development.

There being no one else present to speak either for or against this application, deliberations concluded with the introduction of the following recommendation.
