Subject: [EXTERNAL] PLZ-HA-2021-067 Zoning Application - Public Meeting for Zoning Amendment

Dear Sir or Madam,

This is regarding the public meeting of the zoning amendment of PLZ-HA-2021-067, 20 Lake Erie Lane.

We are the owner of 16 Lake Erie Lane, Selkirk, ON.

We oppose this zoning application for the following reasons:

1. The zoning change and permission to add a vacation home will add more burden to the already tight water supply for the neighboring property. The water supply may be impacted by adding more wells in this neighborhood. First possibility is the change of available water amount, second possibility is the contamination of water if the wells are too close to each other.
2. The septic system of the neighboring property will also be impacted by this zoning change. Since the current septic systems are already in full capacity, adding a new septic system will increase the possibility of the contamination of the water supply of the neighboring property and may lead to the malfunction of the neighboring septic systems.

Based on the aforementioned reasons, we strongly oppose this zoning amendment.

Best regards,

Yong Bian and Jiansong Kong

Owner of 16 Lake Erie Lane, Selkirk, ON.
