Subject: [EXTERNAL] Delegation

Good morning.

Please accept this notice as my formal request to appear on behalf of Stelco before Council in Committee on May 23, 2023. Of concern to Stelco is Agenda Item I.1. related to the draft motion reconfirming the request for a Ministerial Zoning Order to reclassify the provincially significant employment lands in Nanticoke.

While Stelco has presented on this matter before Council previously, we believe there is new information that should be put before by Council prior to their final consideration of this motion. There have been developments related to the legal ownership of the lands since the conclusion of the public consultation period that warrant both additional time and consideration so that they may be resolved in advance of Council's determination of this matter.

Accordingly, Stelco would like to present its views to Council regarding the timing of this motion following the public consultations. We believe effort should be taken by the County to report back to Council regarding the comments received so they can consider all of the new information that has been made available since this issue was first considered. Considering the magnitude of the issue being considered and the public interest that has clearly been demonstrated, it is appropriate that concerns raised by residents be considered and every resident be equally represented during the deliberations.

Regards,

Trevor D. Harris
