Subject: [EXTERNAL] Request to Address Council in Committee May 23 2023

I would like to register as a Delegation to address CIC with respect to the requesting the Ministry of the Environment Conservation and Parks with respect to the 1972 Land Planning Review that recommended a 3 mile buffer zone in order to protect residence from Industrial Air Emissions from the Industrial Sector

I would like to present the Air Dispersion Modelling Summary that shows the air emissions are below the Ontario Reg 419/05 Upper Risk Thresholds and to reassure that minimal cumulative health impacts are foreseeable within the 3 mile radius.

Furthermore I would like to show that a buffer of 1000 m would ensure and zero emissions from the plant would be negligible and that the Ministry and Council should amend the planning act to reflect a 1000 m buffer .

The entire presentation will be under five minutes. I will not be discussing any previous topics or information provided to council and the public.
